Meet Julian!

A charming and empathic young man.

Julian is a charming and empathic young man. Julian's current interests are poetry, painting, swimming, and football. You can always count on him being hungry for any type of Chinese buffet. If Julian can't be outside, he enjoys watching movies with interesting storylines and characters. Julian enjoys all types of music but prefers country music.

Julian is very driven when it comes to school. His favorite subject is math. He hopes to be a firefighter or go into the Air Force when he is older.

Julian would do well in a two-parent home as the oldest or only child. His family will need to provide him with structure and activities to keep him active. Julian asks that his future family teach him how to cook, drive, and go on vacations around the world.

Julian was born in 2009.
